

Everything you need for an **easy-to-use** fuel or pump management system.

CALL TODAY about special Key Pad features!

provides “fast, simple fuel management” solutions!!

Works with any pump.

Easy to Install

One phone call to **817-793-3684** gets the ball rolling. No Fuss. We can do it all for you. Tell us where you want it and we can get **FLOWrangler** installed on your pumps and equipment typically within a week to ten days.

Easy to Learn

On site training is available. It is our way of making sure that your employees know how easy it is to use **FLOWrangler**. We can train most people within fifteen minutes. We recommend Excel® to run your fuel reports. Check out the video @ www.datapaktx.com.

Easy to Track

Your data is processed using Excel® so that you can readily view your critical information in a clear and concise manner. And nobody has to learn a new software system.

Easy to Support

Your business is vital to us, so we’ll provide a rapid response when you have a question or a problem. Two-hours or by the next business day, it’s our way of providing additional service to your business.
